The Tooth Shop™

Before You Arrive

What to do:

- Fill out forms ahead of time (if provided)
- Bring insurance information
- Arrive 10–15 minutes early

What to say to your child:
Keep it positive and light.

Instead of:

- “It won’t hurt”
- “Don’t be scared”

Try:

“We’re going to meet a dentist who helps keep your teeth healthy and strong.”

From the Moment You Walk In

A Calm First Impression

- Friendly greetings
- Kid-focused environment
- No cold or clinical feeling

Meeting Dr. Perkins

- Connects before treatment
- Explains things simply
- Moves at your child's pace

“Our goal is simple: help your child feel safe from the very beginning.”

What Happens During the Visit

Every first visit is designed to feel gentle, educational, and stress-free.

Depending on your child's age and comfort level, we may:

- Check teeth and gums
- Take X-rays if needed
- Perform a gentle cleaning
- Discuss development and habits
- Answer questions and concerns

No surprises.

No pressure.

No unnecessary treatment.

For Nervous or Anxious Kids

Dental anxiety is more common than most parents realize.

We regularly work with:

- Nervous children
- Sensory-sensitive kids
- Children with past negative experiences

Our approach is calm, patient, and supportive.

When appropriate, we also offer safe sedation options to help children feel comfortable during treatment. Every child deserves to feel safe at the dentist.

After the Visit

You'll leave with clarity, not confusion.

We'll walk you through:

- What we saw
- What's normal
- What to keep an eye on
- Recommended next steps

Most importantly...

You'll leave knowing your child is in good hands.

Why Parents Choose The Tooth Shop

Families come to us for more than clean teeth.

They come for:

- A judgment-free experience
- A team that truly connects with kids
- Honest, clear communication
- Long-term support for their child's health

We're here to make dental visits feel easier for both kids and parents.
